 Curtin University

The big picture at Curtin

- Research Data and Primary Materials Policy
<http://policies.curtin.edu.au/findapolicy/#R>
- Strong links to Australian Code for the Responsible Conduct of Research
<https://www.nhmrc.gov.au/guidelines-publications/r39>

Research data – management and planning
Curtin University is a trademark of Curtin University of Technology
CRICOS Provider Code 00301J

Why are we doing this?

- Research data are valuable assets
- It's good research practice
- Funder and publisher requirements
- Because it is now mandated that HDR's must create a DMP

Article Info

Abstract **Full Text**

This article has been retracted; please see Elsevier Policy on Article Withdrawal (<http://www.elsevier.com/locate/withdrawalpolicy>).

This article has been retracted at the request of the authors. The authors identified a inconsistency in the accepted paper and were unable to reproduce the average values that were used for the graphs and tables in the paper, due to the loss of the raw data. This, in turn, means that the authors cannot fulfil the demands of the Association of Dutch Universities and the Royal Dutch Academy of Science in respect to their ethical and research data standards.

Storage request process

for Curtin student data management plans

1. Student: Login to <https://dmp.curtin.edu.au/>
2. Student: Create data management plan
3. Supervisor: Login to <https://dmp.curtin.edu.au/>
4. Supervisor: Submit storage request
5. Storage provisioned by CITS
6. Supervisor and student can access the Research Project Folder on the Research Drive

* Follow [these instructions](#) if you need to manually map the Research Drive on your computer
